

Participant Information Sheet for Younger Children:

To be shown and read with parent or caregiver

Hello - We have asked your parent or caregiver if you will help us to work out if a combination inhaler for your asthma is better than the inhaler you are using now.

You might get a new red inhaler or continue using the same inhaler(s) as usual. We will teach you how to use it.

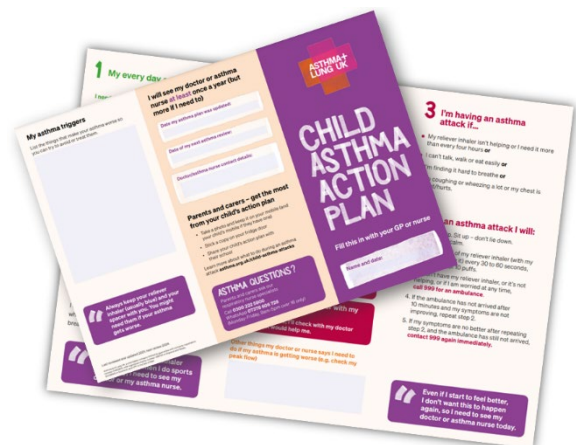

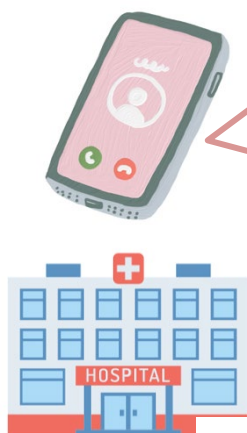

Or

We will also provide an Asthma Plan for you.

This will show you and your parent or caregiver how to take care of your asthma.

We will call you and invite you to the hospital.
We will measure how tall you are, ask for your saliva and ask your parent or caregiver some questions.

We'd like to see you again soon to make sure you are better.

Thank you for looking at this and for helping us.

All backgrounds and abilities are welcome to take part!

Please ask us any questions if you want to. You can also visit our website by clicking on this link:
